

## Mounting Suggestions: Honda VLX 600 Shadow 1988-98 One-Piece Seat

### **Baseplate Features:**

The one-piece, marine-grade fiberglass baseplate mounts like stock. Rubber bumpers are positioned to prevent the seat from touching the frame and fender.

### **Stock Seat Removal Steps**

1. Remove the side mounting Allen bolts under center of seat with 5 mm Allen wrench.
2. Slide seat back, then up to remove.

### **Mounting of Mustang Seat**

1. Position the seat on frame and fender so that nose tab engages into frame under tank and stock hooks slide into holes at rear of seat.
2. Secure in center with stock bolts.

NOTE: Rear hooks can be bent up for saddlebag clearance, then add washers under seats mounting bracket.

### **Enjoy the Comfort of your new Mustang Seat!**

These steps are guidelines to help you install your new Mustang product. If you need further assistance please call us at 800-243-1392, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to [questions@mustangseats.com](mailto:questions@mustangseats.com) or visit our website at <http://www.mustangseats.com>
